

## CANBURY COMMUNITY GARDEN

**Do you miss having a garden? Or are you a keen gardener with skills you could share?**

**Would you like to learn more about gardening and sustainable, wildlife-friendly gardening?**

**Would you enjoy working out with other people, clearing the ground, planning and cultivating this community garden, getting healthy outdoor exercise, and growing food and herbs to share?**

**To help transform the former gardeners' yard on the edge of Canbury Gardens into a productive community garden, do come along to one of our regular weekend community gardening sessions\* for an hour or two.**

**To find out more** and confirm gardening session times, see the [Canbury Community Garden Facebook page](#) or the notices on the community garden gates.

**With thanks** to Berkeley Homes, Canbury and Riverside Association and Kingston Council for funding, to Beaver Scouts, Kingston Environment Centre, Quadron/idverde, Timebank, Transition Town Kingston and Young Place Shapers for volunteers and other support, and to everyone who has helped or donated items.

**\* Depending on weather and public holidays, of course! We have *garden tools and gloves*, but please bring some if you have them. *Donations of tools and other useful items welcome too.***
